

The next generation
in biogas measurement

Your plant performance - Our measurement solution

New

GIR6000
Biogas Analyser

MTL

Crouse-Hinds
by E.T.M.

Introducing the next generation biogas analyser, the **MTL GIR6000** - featuring innovative modular sensor design.

The new **MTL GIR6000** offers a unique modular platform concept that is quick and easy to customise with a choice of up to six gas modules. This allows the user to choose only the gas elements they wish to measure. Reducing plant start-up costs is easy with an integrated solution that optimises your productivity and increases your plant availability. Rugged, reliable and easy to maintain the MTL GIR6000 is an IP65 weather-proof system and is ATEX certified for use in a Zone 2 area for safety confidence.

30 
YEARS OF GAS
EXPERIENCE

Helps achieve optimum plant efficiency

Low cost of ownership

Easy installation and commissioning

Unique Plug-in Gas Sensor Modules

*Available phase 2 release

Unique modular sensor design saving time and cost during installation, commissioning and operation.

Innovative integrated solution offering installation flexibility in a secure IP65 weather-proof system.

Key-lock door and pin code access to programming providing multiple levels of security.

Intuitive Graphical User Interface making start up and use easy without specialist user training.

Wide range of connectivity options utilising analogue outputs, relays and digital communications.

Live process data and alarm indicating current status on a large bright graphical display.
